Project Name	AI STUDY BUDDY API
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you’ll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am

College student studying academic materials

I'm trying to

Understand and revise study material quickly

But

Study materials are lengthy and scattered

Because

Manual summarizing and note-making takes time

Which makes me feel

Overwhelmed and less confident

Problem Statement (PS)	I am (Customer)	I’m trying to	But	Because	Which makes me feel
PS-1	A college student who needs to study and revise academic materials efficiently.	Understand and revise large amounts of study material quickly.	Study materials are often lengthy, scattered, and difficult to convert into easy revision content manually.	Students spend a lot of time reading, summarizing, preparing questions, and creating revision notes on their own.	Overwhelmed and less confident about completing my preparation effectively.
PS-2	A student preparing for exams.	Create summaries, flashcards, quizzes, and a study plan from my study materials.	Creating all these learning resources manually takes significant time and effort.	There is no single platform that combines study-material management with AI-powered learning assistance.	Stressed and frustrated when I have limited time for exam preparation.
PS-3	A student who wants personalized learning support.	Get useful learning content and a study plan based on my uploaded materials.	Generic study resources may not match my specific syllabus or learning materials.	Students have different subjects, topics, learning needs, and preparation schedules.	Uncertain about what to study and how to organize my preparation.
